UNIVERSITY OF WISCONSIN-STOUT
WISCONSIN'S POLYTECHNIC UNIVERSITY

The University of Wisconsin-Stout is currently offering a Master's Degree in Vocational Rehabilitation that is available through Distance Education, and we are actively recruiting potential students. This program was specifically designed for individuals who are already working in the field of rehabilitation or have related experience, and wish to pursue their graduate degree on a part-time basis. Stout's online program is based on practical application of information and uses asynchronous "anytime anywhere" learning, so that impact on the individual's work day is minimized. We are CORE accredited and graduates are eligible to take the CRC exam upon program completion.

Please share this information with interested counselors or rehabilitation practitioners in your area. Tuition costs are competitive and remain the same for in-state and out-of-state students. To ensure individualized attention from faculty, class size is limited to 20 students per year, and is expected to fill well before the September semester begins. Our application deadline is April 15th, and early applications are strongly encouraged. A [program brochure](#) is attached for your consideration and distribution to interested staff. Additionally, detailed information and all application materials

may be downloaded from our website at:

<http://www.uwstout.edu/programs/msvr/>.

The University of Wisconsin-Stout has a long and successful history of rehabilitation counselor training, and ranks among the top ten rehabilitation programs in the country, according to U.S. News and World Report. We are strongly committed to enhancing the pool of qualified rehabilitation professionals, and in helping to meet the Comprehensive System of Personnel Development (CSPD) federal initiative.

For additional information, please feel free to contact me directly at (715) 232-4082, or by email at strohd@uwstout.edu. We look forward to the opportunity to help you meet your training needs.

Sincerely,

DeLeana Strohl
