

Job Driven

EMPLOYMENT RESOURCE

WHAT IS IT?

In July 2014, the Nebraska Department of Labor was awarded a Job Driven National Emergency Grant from the U.S. Department of Labor. Nebraska's Job Driven project creates reemployment services and work-based trainings for dislocated workers, the long-term unemployed, and veterans returning from service. This industry driven project will help connect and prepare participants for employment opportunities in Manufacturing and Transportation, Distribution, and Logistics (TDL) industries. This project focuses on employers and individuals located in the areas highlighted below.

HOW DOES IT WORK?

The Job Driven grant will create and expand existing work-based training opportunities for dislocated workers, the long-term unemployed and veterans returning from service. Work-based training is anchored in the principle of learning skills for an occupation while on the job. Work-based learning is most often coupled with an education component. Work-based training includes: on-the-job training; customized training; apprenticeships; internships; and other work experience options.
